EXECUTIVE SUMMARY FOR CLIENT

This document presents the formal technical and operational progress report for the Samitha Urban Microfinance Enterprise System, explicitly spanning the complete core banking sequence from Member / Customer Management through Credit & Loan Management.

Every module within this pipeline has been meticulously engineered, integrated, and validated according to Nidhi and microfinance regulatory norms. Key deliverables include dynamic member onboarding with instant automated KYC & savings account provisioning, distinctive share capital distribution, double-entry financial accounting, multi-scheme deposit & passbook lifecycles, and a complete end-to-end loan management system featuring dynamic deduction schedules, EMI amortization, legal document generation, and foreclosure reconciliation.
